

Collateral Valuation

Collateral Valuation

Powerful collateral valuations allow faster, more accurate and more informed business decisions. The insights gained from Veros' strong portfolio of collateral valuation products provide a direct, immediate and powerful impact to the client's bottom line.

Whether delivered off-the-shelf or customized, for a single order or entire portfolio, Veros provides strong, accurate tools to gain clarity for any valuation need.

Tools for Today

In today's changing regulatory landscape there is no substitute for having a truly transparent, 360-degree view of your collateral throughout the lifecycle of the loan. Veros' accurately tuned decision support tools offer a variety of solutions to fit your organization's informational needs, delivery preferences and company policies while keeping you in compliance.

Veros Expertise

Since the company's inception, Veros has maintained a laser-sharp focus on collateral valuation and works diligently to ensure its products supply meaningful information answering the most important questions being posed in today's industry climate. The company's products and services are utilized on a national basis by all segments of the mortgage industry including top mortgage lenders, community banks and credit unions, servicers, agency and non-agency investors and rating agencies.

Through advanced technology & data collection and by predicting outcomes for clients quickly and accurately, Veros helps its clients achieve significant competitive advantages and higher levels of success.

Methodology

The strength of Veros' collateral valuations comes from a proprietary approach to predictive technology. The Veros approach recognizes no single method will ever be able to produce accurate and reliable results in every situation. This blended approach ensures the most accurate results, with the highest levels of confidence, are always provided.

Veros is second to none in its ability to combine the power of predictive technology, data analytics and industry expertise to deliver advanced automated decision management solutions.

Veros is a leading provider of automated valuations, predictive market analytics and collateral management technology for the mortgage industry.

Our tools provide essential and cost-effective risk assessment for lenders, servicers, rating agencies and the investment community, both private and government sponsored.

**For real estate valuation accuracy and transparency,
Veros is the solution.**
